## WORK EXPERIENCE

---

### Tennessee Tech iCube

Aug. 2021 – May 2022

*Student C# Intern*

*Cookeville, TN*

- Developed a Unity program utilizing C# and 3D Modeling to educate parents nationwide on car seat safety.
- This project was implemented into the National Highway Traffic Safety Administration's nationwide safety curriculum for parents.
- Testing Virtual Reality programs for bugs and performance issues.
- Meeting with various clients to ensure requirements were met.
- Developed a mobile Unity App with C# to educate users on the dangers of various physical impairments. This is currently available on the iOS App Store and Google Play.

### Phillips Brothers Landscaping

March 2013 – Nov. 2021

*Co-Owner, Landscaper*

*Cookeville, TN*

- As a co-owner, I oversaw landscaping, customer service, and finances.

## EDUCATION

---

### Tennessee Technological University

Expected Graduation Date: May, 2023

*BS, Computer Science*

*Cookeville, TN*

- Minored in Mathematics.

### Senior Project

- Utilizing an Agile workflow, I led a group of 5 students to coordinate with Urban Science and create an SFTP Pipeline to automate file transfers.
- Used Python, SQL Server, and an SFTP Server to develop a modern GUI which implemented a file transfer protocol, allowing the easy uploading of files for Urban Science's customers.
