WORK EXPERIENCE

Tennessee Tech iCube

Aug. 2021 – May 2022

Student VR Intern

Cookeville, TN

- Developed a Unity program utilizing C# and 3D Modeling to educate parents nationwide on car seat safety.
- This project is currently planned to be implemented into the National Highway Traffic Safety Administration's nationwide safety curriculum for parents.
- Testing Virtual Reality programs for bugs and performance issues.
- Meeting with various clients to ensure my programs met their needs.

Phillips Brothers Landscaping

March 2013 – Nov. 2021

Co-Owner, Landscaper

Cookeville, TN

- As a co-owner, I oversaw landscaping, customer service, and finances.

EDUCATION

Tennessee Technological University

Expected Graduation Date: May, 2023

BS, Computer Science

Cookeville, TN

- Minored in Mathematics.

Senior Project

- Led a group of 5 students to coordinate with Urban Science and create an SFTP Pipeline to automate file transfers.
- Used Python, SQL Server, and an SFTP Server to develop a modern GUI which implemented a file transfer protocol, allowing the easy uploading of files for Urban Science's customers.
